FILE HEADING

Use of pipe water for watering public gardens in the Mysore city

From

Chief Engineer

No 2478 Dated 6 4 08 Received 8. 4 08.

Diary No. 7397	Enclos 4 & Spare Copies	Serial No /

BRIEF ABSTRACT OF LETTER.

Forwards correspondence relating to the use of pipe water to the gardens in Guests' Quarters, Servants' Quarters in the Mysore city, Private Secy's Quarters &c., and requests orders of Govt as to whether water from pipes may be allowed for the above purpose.

NOTES AND ORDERS

The Chief Engineer states that after the completion of the electric pumps &c., at Belaola there will be no difficulty to supply the above gardens with water and that while the water supply to the Mysore city is state dependent on

To,

C.S.Balasundaram Iyer Esquire, B.A.,
Offg: Secretary to the Government
of His Highness the Maharaja of Mysore
General and Revenue Departments
B A N G A L O R E.

Sir,

I have the honor to forward the accompanying correspondence ending with letter No. 1080 of the 5th ultimo, received from the President, Mysore City Municipal Council in the matter of the water supply to the gardens in Guests' Quarters, the Dewan's Quarters and the Private Secretary's Quarters in Mysore, enquiring whether pipe water may be allowed for the use of those gardens, and to request that you will be so good as to obtain the orders of Government on the subject.

II Now that Government have sanctioned the installation of the electric pumps at Belagola, it is hoped that in about 7 to 8 months' time all difficulty in regard to the supply of water for all purposes will be over.

III. But while the water supply to the Mysore City is still dependent on the existing plant at Belagola, it is necessary that economy in the use of water should be strictly exercised, especially during the present hot weather when

there

there is so little water in the river. But as there is no separate connection for the water supply to the gardens referred to, we cannot very well cut off the supply altogether to the houses under reference.

IV It is, however, necessary that the water used for gardens &c in excess of the stipulated free allowance should be paid for, and it is therefore necessary that meters should be fixed as early as possible to every house connection in Mysore, and the amount of water to be given free to each house definitely fixed by the Municipality. The Executive Engineer has therefore been ordered to submit estimates for the purpose as early as possible for sanction, and to make the necessary provision for these meters in the next year's budget.

V This office file relating to the subject is herewith sent for information and return.

I have the honor to be,
Sir
Your most obedient servant,

M. H. Nicholas

Chief Engineer of Mysore.
